Importance: High

Mark,

Here's what LaTonya sent to HQ OCIR Sunday (Hot Issues-Senate Approps...file). She managed this through our usual process of asking programs for any updates on major issues.

Of the issues you noted, the file includes WLL and MO Lead (includes one reference to Doe Run).

Becky's team tells me the previous Doe Run fact sheet is still accurate (attached with updated date).

Karen's team is working on an update to the St John's Bayou (previous version attached).

Apparently, the OCIR briefing to the Administrator was this morning at 9:00 ET.
